Dear Nicole1

Looks like you've caught someone's eye!

Another FaithMate member has sent you a smile, which means that you've caught their interest . . . and they are wondering if they might catch yours.

Click below to view the profile of the member who sent you a smile. If you like what you see, send them one back. Or better yet, why not send an e-mail to introduce yourself and get the conversation started?

Remember, every happy couple has their story of someone going out on a limb to find love. This could be the beginning of *yours!*
