Deserve to  
be Spoiled.

We Have The  
Product For  
That!

Discounts  
for all  
Day Spa  
Members,  
please  
inquire.

The one-stop spa and salon solution, we have the products to pamper—while allowing you to maintain the cleanest and safest environment for your clients:

**Cleaners**—The only cleaners designed for Pedi Spas, whirlpool baths, saunas, and spas that do it all:

Sanitize and disinfect with a one-shot fungicide, bactericide, barbicide, and virucide—EPA approved to meet all state-regulatory criteria

Dissolve dirt and grime, dislodge, and powerfully purge buildup from pipes (yes, even pipeless jets still need cleaning!) Continue to work long after application, providing a continuous and impenetrable barrier of protection Preserve all surfaces from discoloration, leaving tubs and tools sparkling clean and smelling fresh

**Fixtures**—San-Ei Japanese-imported faucets and parts pair clean lines and artful design with innovative functionality

**Pedi Spa Stations**—The first foot spa that strategically places jets to stimulate and massage healing pressure points, rather than just “moving the water around”

**Whirlpool Systems**—Available for installation into any tub, the most advanced jets and draining systems on the market

**Call us now**—find out how Sanicor can be your one-stop solution to a healing and hygienic environment

A worldwide leader in the sanitary ware industry, Sanicor International boasts 25 years of experience engineering and supplying spas and salons with the highest-quality whirlpool, therapy, and sanitizing products.
